

## GPS Rear Wheel Drive Electric Cars Lithium Ion Battery With High Charging Capacity

Our Product Introduction

for more products please visit us on petrolhybridcars.com

### Basic Information

- Place of Origin: China
- Brand Name: Tank
- Model Number: 700
- Minimum Order Quantity: 1
- Payment Terms: T/T

### Product Specification

- Interior Features: GPS, Bluetooth, Touchscreen
- Drive Mode: Rear Wheel Drive
- Connectivity: Bluetooth, Wi-Fi, GPS
- Interior Comfort: High
- Charging Capacity: High
- Fuel Economy: High
- Interior Design: Leather Seats
- Motor Type: Permanent Magnet Synchronous Motor
- Highlight: **GPS Rear Wheel Drive Electric Cars, Lithium Ion Battery rwd electric cars**

## Product Description

### Product Description:

One of the standout features of the BEV Battery Electric Vehicle is its tire size. The 235/45 R19 tires provide a smooth and comfortable ride while also ensuring optimal performance on the road. This makes the BEV Battery Electric Vehicle an ideal choice for drivers who want a vehicle that can handle any driving conditions.

The infotainment system of the BEV Battery Electric Vehicle is compatible with both Android and iOS devices. This allows drivers to seamlessly connect their smartphone or tablet to the vehicle's system and access their favorite apps, music, and other media. This feature adds convenience and entertainment to the driving experience, making the BEV Battery Electric Vehicle a top choice for tech-savvy drivers.

The interior design of the BEV Battery Electric Vehicle is another standout feature. The leather seats add a touch of luxury and comfort to the vehicle, while also providing additional durability and longevity. The interior of the BEV Battery Electric Vehicle is designed to provide a high level of comfort, making it an ideal choice for long commutes or road trips.

Connectivity is a key feature of the BEV Battery Electric Vehicle. The vehicle is equipped with Bluetooth, Wi-Fi, and GPS technology, allowing drivers to stay connected and easily navigate their way on the road. This feature adds an extra layer of convenience and safety, making the BEV Battery Electric Vehicle an ideal choice for drivers who prioritize connectivity and ease of use.

Finally, the interior comfort of the BEV Battery Electric Vehicle is another standout feature. The vehicle is designed to provide a high level of comfort, with features such as heated seats and a climate control system that ensures the perfect temperature is maintained at all times. This makes the BEV Battery Electric Vehicle an ideal choice for drivers who prioritize comfort and convenience on the road.

### Features:

Product Name: BEV Battery Electric Vehicle

Charging Capacity: High

Motor Type: Permanent Magnet Synchronous Motor

Connectivity: Bluetooth, Wi-Fi, GPS

Infotainment System: Android/iOS Compatible

Interior Comfort: High

BESS Battery Energy Storage System

Electric Car Lithium Ion Battery

### Technical Parameters:

|                      |                                    |
|----------------------|------------------------------------|
| Exterior Design:     | Aerodynamic Design                 |
| Charging Port:       | Type 2                             |
| Top Speed:           | 200 Km/h                           |
| Drive Mode:          | Rear Wheel Drive                   |
| Infotainment System: | Android/iOS Compatible             |
| Motor Type:          | Permanent Magnet Synchronous Motor |
| Interior Comfort:    | High                               |
| Interior Design:     | Leather Seats                      |
| Suspension Type:     | Independent Suspension             |
| Transmission Type:   | Automatic                          |

This BEV Battery Electric Vehicle product is powered by a Lithium Ion Battery. It is an Electric Car Lithium Ion Battery or Electric Vehicle Lithium Ion Battery.

### Applications:

The Tank 700 is a Battery Electric Vehicle (BEV) that is powered by an Electric Car Lithium Ion Battery. This battery is designed to provide long-lasting and reliable power to the vehicle, ensuring that it can travel for long distances without needing to be recharged. The BESS Battery Energy Storage System also ensures that the battery is always in optimal condition, providing consistent performance over time.

The Tank 700 is a versatile vehicle that can be used in a variety of different applications and scenarios. It is perfect for individuals who are looking for a reliable and efficient mode of transportation, as well as for businesses that need to transport goods or people over long distances. The vehicle is capable of reaching a top speed of 200 Km/h, making it suitable for use on highways and other high-speed roads.

The Tank 700 features an aerodynamic design that helps to reduce drag and improve fuel efficiency. This design also gives the vehicle a sleek and modern appearance, making it a stylish choice for anyone who wants to make a statement on the road. The interior of the vehicle is designed for maximum comfort, with high-quality materials and advanced features that provide a luxurious driving experience.

The Tank 700 is also equipped with an advanced infotainment system that is compatible with both Android and iOS devices. This system allows drivers to easily connect their smartphones or other devices to the vehicle, providing access to music, navigation, and other features while on the road. The vehicle also features large 235/45 R19 tires that provide excellent traction and stability, ensuring a safe and comfortable ride in any conditions.

The Tank 700 is manufactured in China and is available for purchase with a minimum order quantity of 1. Payment terms are T/T, providing a convenient and secure way to purchase the vehicle. Whether you are looking for a reliable and efficient mode of transportation for personal use or for your business, the Tank 700 is an excellent choice.
